

USE

Flexocream roll-on is perfect for massaging sensitive areas (nape of the neck, back, elbows, thighs, etc.). The heat effect² increases massage intensity, with an immediate sense of relaxation, providing relief day to day.

Flexocream roll-on, with its ultra-light, pleasant scent and roller-ball format, can be used anytime and anywhere, whether at home or out and about. **Flexocream roll-on** does not have photosensitizing properties and can therefore be applied before sun exposure.

The massaging roller-ball is ideal for a pleasant, targeted self-massage, allowing Flexocream roll-on to be used as needed without direct contact with hands. The soft tube dispenses exactly the right amount of cream.

Flexocream roll-on is very well tolerated, easily absorbed, non-sticky and does not dry out the skin.

INGREDIENTS

AQUA, COPAIFERA OFFICINALIS RESIN OIL, POLYACRYLATE-13, VANILLYL BUTYL ETHER, BENZYL ALCOHOL, POLYISOBUTENE, SILANETRIOL, POLYSORBATE 20, SORBITAN ISOSTEARATE, DEHYDROACETIC ACID.

INSTRUCTIONS FOR USE

Apply to the affected sensitive areas, in a circular motion, until the cream is absorbed. Reapply 2 or 3 times a day.

Flexocream roll-on can also be applied before or after exercise.

Flexocream roll-on is approved for pregnant and breast-feeding women, and children from

6 years of age. For use in children, first test the product on a small area to ensure that the heat effect is tolerable.

¹Usage test under dermatological supervision, 22 volunteers. ²The heat sensation may vary depending on the application area, the duration of the massage and the amount of product used.

PRECAUTIONS FOR USE

- If you rub in the product with your hands, wash them thoroughly after application.
- For external use only.
- Do not use on irritated skin, open wounds or in the event of skin disorders.
- Avoid contact with eyes, mouth and mucous membranes.
- Keep out of the reach of children.
- Not for use in children under 6 years of age.
- Do not use in the event of known hypersensitivity to the ingredients.
