

# Calmiderm®

**Calmiderm® soothes itching,  
relieves irritations and facilitates  
the restoration of skin balance.**

## USES

- Skin irritations, redness, scratch ;
- Itching, insect and plant stings ;
- Cold and sun aggressions ;
- Dry skins ;
- Chapped hands, tired feet.

## ACTION

- In case of irritations and insect or plant sting, **calendula** has a protective and soothing effect on epidermis.
- **Camomile** soothes and alleviates skin redness and swelling.
- **Lavender** soothes and helps regenerating skin.
- **Menthol** provides a pleasant fresh feeling.

The basis of Calmiderm® is an emulsion that hydrates epidermis. It is therefore also suitable for dry and irritated skins.

## DIRECTION FOR USE

Apply a thin layer of Calmiderm® and rub into the skin. Calmiderm® penetrates rapidly into the skin and does not leave any trace.

## PRECAUTIONS

In case of sun-induced irritation or redness, it is recommended to avoid prolonged exposure to sun as long as the skin is irritated.

Extracts used in Calmiderm® contain alcohol : a smarting sensation may occur if Calmiderm® is applied to a wound and one ought to be careful when applying it near the eyes.

Do not apply to serious burns. Some people may be sensitive to one or more of the ingredients in Calmiderm® (camomile, lavender...) If this is the case, stop using immediately.

**FORMULA :** *Matricaria chamomilla tinctura 4% - Calendula officinalis tinctura 4% - Urtica urens tinctura 2% - Lavandula angustifolia aeth. ol. 0,4% - Menthol 0,24% - Excipients.*
