

Drinkable solution FOR THE THROAT

Thymotil®

Thymotil® contains **THYME** and **WILD THYME** that soothe the throat.

USE

Oral use

Adults and children aged 12 and over

15 ml  **4 x / day**
(1 tablespoonful)

Do not use during pregnancy. Do not administer to children under 12 years of age.

INGREDIENTS for 60 ml

Sweetener : maltitol syrup - Water - Stabiliser : glycerol - Ethanol (alc. 9% vol.) - **Thyme fluid extract** (*Thymus vulgaris*) **3,9 g** - **Wild thyme fluid extract** (*Thymus serpyllum*) **3,3 g**.

MODE OF ACTION

► Used since Antiquity as a culinary aromatic herb, **THYME** is also well-known for ages for its **soothing action on the throat**. It is plentifully cultivated in the whole Europe.

► **WILD THYME** is a « thyme's cousin » that grows spontaneously in the wild. Its composition and properties are almost similar to the ones of thyme.

► In **Thymotil®** drinkable solution, thyme and wild thyme are appreciated for their **soothing effect on the throat**.
