

Antimetil®

DRINKABLE SOLUTION

USE

Antimetil® drinkable solution contains ginger that contributes to preserve your digestive well-being.

Antimetil® drinkable solution can be used in the following situations: in case of overeating, disruption to usual diet habits (on holiday for example) and when travelling.

A little tip for you if you are going on holiday: slip some **Antimetil® drinkable solution** into your bag before you go.

The natural formula of Antimetil® drinkable solution, which contains ginger, is suitable for adults and children aged 6 and above.

ACTION

Many trials have demonstrated **the reliability of ginger**.

The ginger extract used to formulate **Antimetil® drinkable solution** contains an excellent concentration of gingerols, the active ingredients of ginger. It is these gingerols that give ginger its great activity, with an excellent tolerance.

DIRECTIONS FOR USE

Shake before use

CHILDREN 6 TO 11 YEARS

10 ml  1 to 3 x / day

ADULTS AND CHILDREN OVER 12 YEARS

20 ml  1 to 3 x / day

When travelling: take **Antimetil®** 30 min before departure.

Do not use during pregnancy.

Store under 25°C.
