

# Hepatotil®

## USE

Hepatotil is a food supplement made from :

- **artichoke leaves**, contributing to the proper functioning of the liver
- **milk thistle seeds**, supporting liver drainage and the elimination of toxins

## MECHANISM OF ACTION

Thanks to chlorogenic acid and cynarine, **artichoke** extract has beneficial properties that support the proper functioning of the liver and help with natural detoxification.

**Milk thistle** reinforces the action of the artichoke extract with its powerful hepatoprotective and hepatobiliary draining power.

## DIRECTIONS FOR USE

**ADULTS AND  
CHILDREN OVER 6 YEARS**

1  morning and evening

### Precautions:

This product is not suitable :

- in case of bile ducts obstruction
- for children under 6 years

Medical advice recommended for use during pregnancy and breastfeeding.
